Dear Sir or Madam,

My name is Rhian Kenny, I am the PSE Advisor for Carmarthenshire and this is our response to the questions:

1. They are aware about the process of voting for school council members but they are not given enough information to make an informed decision regarding voting for local or national elections.
2. The curriculum is already overburdened if it is taught the link would have to be made with active citizenship.
3. If political parties want to inform young people they must make their policies child friendly. The documents will have to be an honest account- once parties lose their credibility with youngsters it will be lost forever.
4. We are in the very early process of producing a bilingual resource for pupils in year 5 and 6 with respect to democracy and voting.

Yours truly,

Rhian Kenny
