Deputy Committee Clerk,

National Assembly for Wales,

Dear Madam,

Consultation on proposed Legislative Competence Order relating to community councils and councillor recruitment, retention and allowances

The proposals contained in this document were considered by the members of the Pen-y-Cae Community Council at their meeting held on Monday last.

It is felt that should the proposals for conferring legislative competency to the National Assembly for Wales as detailed in paragraphs 12.8 – 12.17 be confirmed that the amount of bureaucracy and costs to Community Councils would increase substantially, therefore this Council is of the opinion that there would be no benefit in transferring powers from the existing controlling body to the Assembly.

Yours faithfully,

Susan Hallard
Clerk
