Dear Madam

Legislative Competence Order

Thank you for your letter of 22nd July 2009 together with the other documents regarding the above order. I recently submitted the documents to the Council for consideration.

The members support any procedure which increases the responsibility, scope, activities and services that the Town Council provides, should be fully supported. This move is in line with the Aberystwyth Study and recommendations.

The other observation is regarding Matter 12.9. Member believe that all aspects should be handed over to the Welsh assembly Government and none be retained by Westminster.

Yours faithfully

John Roberts
Clerk to the Council
